LEA Conference Call
May 14, 2019

Agenda Items

1. **Backcasting and Funding Update**

   Margaret Parisio reported that payments from DHCS are coming in. Payments to claiming units will be sent out as soon as DHCS determines what payments will be made from the Prop 98 funds. She hopes to have payments going out in June.

2. **SPA 15-021 Update**

   Coreen reported that DHCS provided a training on May 9th with an overview of what will come, pending CMS approval.

   The SPA will be retroactive to July 2015 for backcasting purposes.

   There have been major changes to allowable practitioners. Additional providers will be added in July 2019.

   The population of students served will expand to include non-IEP students.

   Implementation of LEA BOP providers in RMTS will be mandatory in July 2020 for those providers that are employees of the district. Contracted providers will be excluded. DHCS has advised us to work on our TSP lists now to get TSPs in the correct pool.
3. Notification Timeframe (1/4)

Effective 19/20 school year, the RMTS notification timeframe will change to 1/4. TSPs will receive notification one day before the moment, and will have four days to complete the moment.

Director Update:

Randy Jones reported that DHCS is still working on Prop 98 information going to the Department of Finance. He is hoping that it goes through, or it will mean that claiming units will be billed for any amounts owed back. $18 million is to be collected statewide.
