What is TPP Program
The Transition Partnership Program is a cooperative agreement between Department of Rehabilitation (DOR) and Glenn County Office of Education. We support students with disabilities in pre-employment skills training, career preparation, job placement and college connections. This program is a means for students with disabilities to complete their secondary education, explore career options and obtain gainful employment. This program provides transitional services to students, employers and the community.

“Success is to be measured not so much by the position that one has reached in life as by the obstacles which he has overcome while trying to succeed.”

Booker T. Washington
Glenn County’s Transition Partnership Program (TPP) is a collaborative project between Glenn County Office of Education and the Department of Rehabilitation (DR). The program is designed to support young adults as they transition from high school to the world of work. The focus of the program is to provide curriculum, assessment, counseling, career exploration, job placement, job coaching and other employment-related support services to young adults with various disabilities.

TPP clients are enrolled into a transition class during their senior year of high school. In this class, the students explore their own skills, abilities, and interests. With the help of a Vocational Rehabilitation counselor, each TPP client will write an Individualized Plan for Employment (I.P.E.). This plan will project the employment goal and objectives for the student to begin working towards. Upon completion of high school, the TPP student will be referred to a TPP job developer who then provides guidance and support to the client as he/she enters into employment.

### The Benefits:
- Increased numbers of young adults in gainful employment
- Lower unemployment
- Increased skilled workforce
- In school work programs that develop work ready employees
- Valuable California State Tax Credits for employers
- On the Job (OJT) reimbursements for the first 3 months of a new hire’s employment, paid directly to the employer
- Keeping employment dollars local

### FACTS
- Sixty percent of the 37,000 transition-age youth in California are currently served by Transition Partnership Programs.
- One out of two Transition Partnership Program applicants are successfully employed.
- Over 50% of the Transition Partnership Program participants served are Hispanic, Black, or Asian American; groups that have been historically underserved.
- Transition age youth constitute over 30% of the Department of Vocational Rehabilitation’s total successful placements.
- When you are supported they challenge themselves and strive to succeed in both life and the workplace.
